Navy Year 2000 Tracking System (NY2KTS)
Software Release Notes
Version 2.1.1
12 November 1998

Software Change Description:

SCR #:	Description of Change

98-31 Changed the Systems Information Program (Y2K01U1) to allow the user to select a new value from the Certification Level Pick List of '5-Does not process Date data'.

98-32 Changed the Systems Information Program (Y2K01U1) to allow the user to select a new value from the Active / Inactive Pick List of 'New Dev. – Fields after 2000'.

98-33 Changed the Systems Information Program (Y2K01U1), Certification Level Pick List value from 'New Development' to 'New Dev. – Fields before 2000'.

98-34 Made the following fields mandatory (required) when entering or changing data in the Systems Information Program (Y2K01U1):
- Mission Critical (default 'No') – Also removed 'Unknown' from the Pick List.
- Current Phase – Also changed 'Completion' to 'Completed'.
- Strategy – Also changed 'No Action Required' to 'No Renovation Required'.
- Cont. Plan in Place (Default 'Unknown') – Changed application so the value for Unknown in the database will be 'U' vice NULL.
- Main System (Default 'Main')
- Certification Level (Default '4-Not Certified')
- Active / Inactive
- Interface w/Systems – Changed application so the value for Unknown in the database will be 'U' vice NULL.

98-35 Changed the Systems Information Program (Y2K01U1) so that the program does not allow incorrect values to be typed into the Pick Lists for the following fields:
- Mission Critical
- Current Phase
- Strategy
- Cont. Plan in Place
- Main System
- Certification Level
- Active / Inactive

Navy Year 2000 Tracking System (NY2KTS)
Software Release Notes
Version 2.1.1
12 November 1998

Software Change Description:

SCR #:	Description of Change

- Interface w/Systems

98-37 Changed the Systems Information Program (Y2K01U1) so that it displays and allows the user to scroll through the description/remarks fields. The program would not allow the user to scroll through these fields, therefore, only allowing the user to see the first couple of lines of description/comments within each of the fields. The following fields were changed to allow a vertical scroll bar to appear on the right of the field:
- System Description (just below the System Name)
- General Comments/Remarks (at the bottom of the Systems Info window)
  - Description
  - Remarks
  - Resolution Remarks
  - Other Remarks
  - Verification Remarks

98-38 Corrected problem with the Cost Report (Y2K02R6) and the Cost Summary Report (Y2K02R7) with displaying the Costs correctly. The reports were displaying * (asterisks) in these fields. The problem has been corrected.

98-39 Changed the Late Systems Report (Y2K02R2) so that it uses the Est. Completion Date of 1/31/99 vice the previous date of 12/30/98 for the report selection of Systems which are in Validation and just Mission Support. Since the NEW effective date for Late Systems is now 31 January 1999, the report required modification to select the correct Systems which are identified as being date based on this NEW date.
